

PERIPHERAL FUTURES

MARTIN REIN-CANO

WEDNESDAY OCTOBER 2ND 18:00
FREE TO THE PUBLIC

RITZ THEATRE
KIRKKOPUISTIKKO 22, 65100 VAASA

The creative director and founder of Topotek1, Martin Rein-Cano will give a lecture on planning for social city life. The goal is to investigate, now that Wärtsilä is moving to Vasklot, how this site in the city centre could be and will be used in the future. The group will as well look at potential possibilities for what could happen at the site in Vöråstan.

PERIPHERAL FUTURES is a collaborative project hosted by Johan Bäckman of Patchwork Architects and with Platform, the City of Vaasa and graduate students from the Master's programme in Architecture at KTH Royal Institute of Technology in Stockholm, Sweden.
